

UNITED STATES GOVERNMENT

Memorandum

TO : J. P. O'Reilly, Senior Reactor Inspector DATE: AUG 15 1967
Region I, Division of Compliance

FROM : J. R. Sears, Reactor Inspector *J.P.O. Reilly*
Region I, Division of Compliance *for*

SUBJECT: U. S. ARMY MATERIALS AND MECHANICS AGENCY - WATERTOWN ARSENAL
CO REPORT NO. 46/67-2

One could invent embarrassing situations from the beam tube modifications to this reactor. I believe there will be a definite improvement in reducing argon and stagnant beam tube water.

Colonel Kellogg impressed me as a reasonable and practical man. Mr. O'Connor will be a valuable addition to the audit program.
