Gentlemen:

This refers to the inspection conducted by Mr. J. W. Hodges of this office on March 25-26, 1975, of the safeguards control provided by the University over the special nuclear material possessed pursuant to NRC Special Nuclear Material License Nos. SNM-452, SNM-50, R-56 and SNM-1050. This refers also to the discussions of our findings held with Mr. D. G. Price at the conclusion of the inspection.

The area examined during this inspection was your program for safeguarding special nuclear material under the applicable provisions of Title 10, Code of Federal Regulations, Part 70, "Special Nuclear Material," and specific requirements of the above licenses. Within this area, the inspection consisted of selective examinations of procedures and representative records, interviews with facility personnel, and observations by the inspector.

Within the scope of this inspection, no items of noncompliance were disclosed.

In accordance with Section 2.790(d) of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, documentation of the findings of your safeguards and security measures are exempt from public disclosure; therefore, the inspection report will not be placed in the Public Document Room.
