Licensing Branch #2
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, DC 20555

Subject: LaSalle County Station Unit 1
Proposed Amendment to NPF-11
NRC Docket No. 50-373

References (a): C. Schroeder letter to A. Schwencer
dated July 14, 1982.

(b): 10 CFR 170.22.

Dear Mr. Schwencer:

Reference (a) (3 originals and 37 copies are enclosed) requests an amendment to license NPF-11. Reference (a) states: "Pursuant to 10 CFR 170, this change reflects one Class II amendment. A remittance of \$1,200.00 is, therefore, enclosed." Upon review of the applicable regulations (Reference (b)) and consultation with legal counsel, it has been determined that:

- a) This is one Class II amendment
- b) No fee is required because this amendment is the result of a specific Commission request which has only minor safety significance, and is to be issued for the convenience of the Commission.

Therefore, a remittance of \$1,200.00 is not enclosed with Reference (a). NO FEE IS REQUIRED.

Three (3) originals and thirty-seven (37) copies of this letter are also enclosed for your use.

3001

A. Schwencer
