Dr. Linda Little
ASLB TMI #1 RESTART
UBNRC
DEAR ALW Little,

You asked a question about TRITIUM CONTAMINATION
IN TEST WELLS. I AM ENCLOSING A MAP
SHOWING STRONG H^3 CONTAMINATION. THIS HAS
INCREASED REGULARLY.

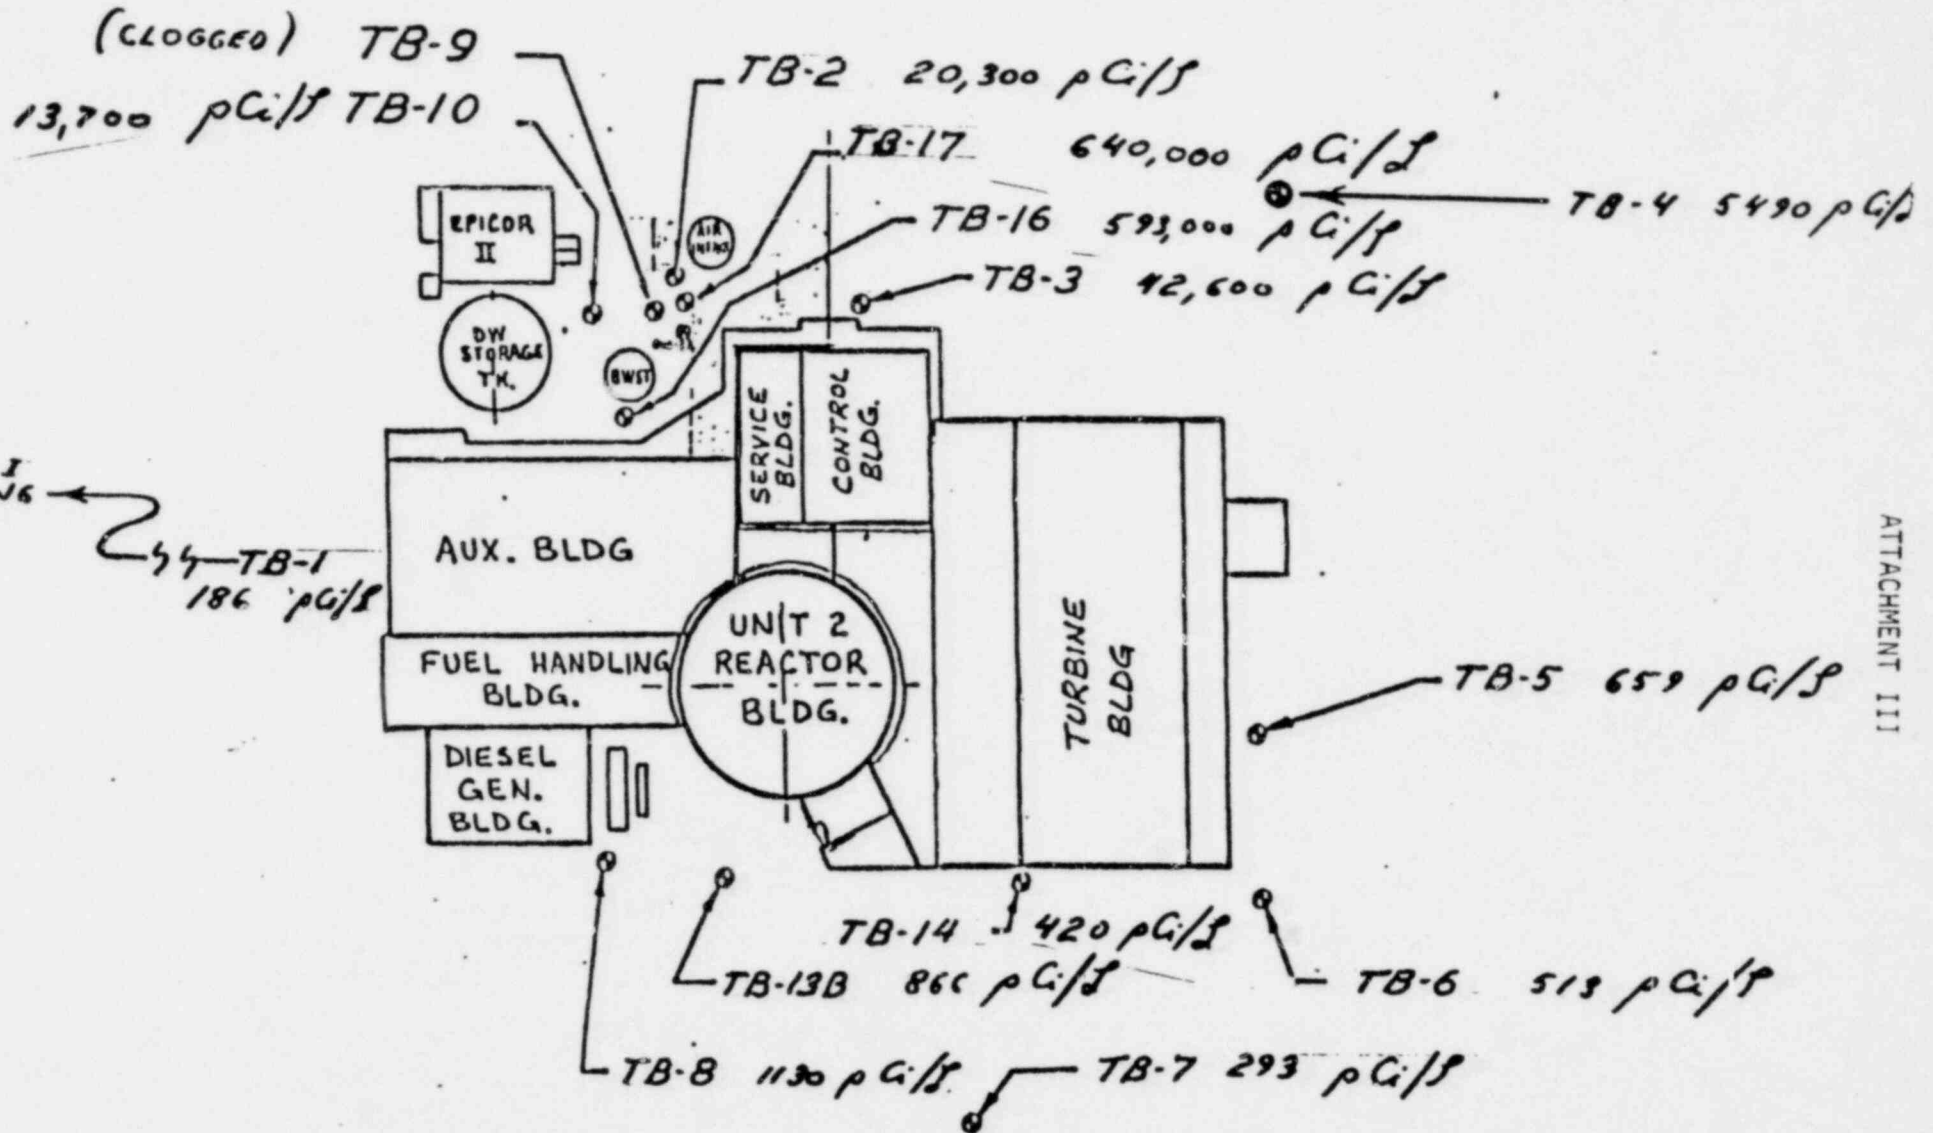

HAVE YOU SEEN THIS MAP AND DO YOU
CONSIDER THIS CONTAMINATION ABLE TO
AFFECT THE SAFE OPERATION OF UNIT #1?
NO ONE HAS GIVEN AN ESTIMATE OF THE
TOTAL H^3 CONTAMINATION AS YET, NOR OF
THE SOURCE OF THE CONTAMINATION. THERE
HAS BEEN SPECULATIVE STATEMENTS, BUT
NO REAL PROOF.

CONSIDER THIS LETTER A PUBLIC COMMENT
& PLEASE ADD IT TO THE OTHER
PUBLIC COMMENTS IN THE TMI #1
RESTART DOCKET.

Very truly yours,
Marwin I. Lewis
CV 95964.
