Subject: [External_Sender] Docket # NRC 2020-0021
Date: Friday, February 21, 2020 11:28:51 PM

To whom it may concern;

Regarding the matter of Decommissioning at Indian Point in New York, The process requires the greatest caution and attention to detail by qualified personnel as critical environmental concerns have arisen about the potential release of radioactive materials.

Based on current information about Holtec, it should NOT be assigned as licensee for the Decommissioning.

Respectfully, Robert Conticchio 11709
