Subject: PROPOSED INFO-NOTICE ON EDSFI FINDINGS -R

As per our discussion, in Rockville, last July, based on the data provided by Philadelphia Electric at the enforcement conference, it is appropriate to delete from IN 91-29, Supplement 2, all references to the Limerick scenario. The current version of IN 91-29, Supplement 2, attached to your E-Mail is acceptable and concurrence is provided.

With copy of this message to Bill Ruland and Gene Lazarowitz I request that they confirm concurrence.
