SUBJECT: James A. FitzPatrick Nuclear Power Plant
Docket No. 50-333
**Proposed Changes to the Technical Specifications
Safety Review Committee (JPTS-93-018)**

Dear Sir:

This application for an amendment to the James A. FitzPatrick Technical Specifications proposes to modify the membership and record keeping requirements of the Safety Review Committee (SRC). The proposed amendment is, in part, the result of an organizational change at the Authority's headquarters office in White Plains which eliminates the position of Vice President - Nuclear Support. It is also proposed that the time frame for preparing records of SRC activities be changed and made consistent with the BWR/4 Standard Technical Specifications.

The proposed changes to the Technical Specifications are provided in Attachment I, and Attachment II is the associated Safety Evaluation.

A copy of this application is being provided to the designated New York State official, in accordance with 10 CFR 50.91.

If you have any questions, please contact Mr. J. A. Gray, Jr.

Very truly yours,

A handwritten signature in dark ink, appearing to read "R. Beedle", written over a horizontal line.

Ralph E. Beedle
