Dear Sir:

I'm writing to ask you to license the Claiborne Enrichment Center as quickly as possible. You have done extensive research and found the plant to be safe. Now it's time to move on and get the project going since it will provide jobs to our residents.

As a retired educator in Claiborne Parish, I can tell you that many of our young people have to leave here to find meaningful, well-paying jobs. This plant will help that situation.

In 1991, I visited the Oconee plant in South Carolina and saw many young people in responsible positions. I want the same thing to happen here.

Cordially,

Doris Lewis
