Dear Mr. Sylvia:

Subject: Combined Inspection 50-220/94-01 and 50-410/94-01 (01/3-7/94)

This letter refers to the above subject physical security inspection of Nine Mile Point Nuclear Station Units 1 and 2, by Mr. E. B. King of this office. The preliminary inspection findings were discussed with Mr. McCormick and other members of your staff by Mr. King at the conclusion of the inspection.

Areas examined during the inspection are described in the enclosed NRC Region I Inspection Report. Within these areas, the inspection consisted of observations of security activities, interviews with personnel, and selective examinations of security procedures and representative records.

We found that your physical security program is effective and directed toward assuring public health and safety. Management support for the program was evident through the implementation of several program enhancements to increase its effectiveness. No safety concerns or violations were observed.

Thank you for your cooperation.

Sincerely,
