

NORTHWEST ENVIRONMENTAL ADVOCATES

October 1, 1990

Docket #
50-460
50-508

Patricia Eng, Project Manager
Project Directorate V
Division of Special Projects - III, IV, V and Special Projects
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Ms. Eng:

In response to your letter of September 27, this constitutes notification that the Coalition for Safe Power does want to remain on the mailing list for the WNP-1 and WNP-3 facilities.

Frankly, it is difficult for me to understand how the NRC could even contemplate removing the Coalition for Safe Power from the mailing list considering the fact that the organization is the sole intervenor in the proceedings. The Coalition desires to continue to receive all information relevant to these construction projects.

For your information, the Coalition has changed its name to Northwest Environmental Advocates. In addition, I am now the Executive Director. Otherwise, our status remains unchanged.

Sincerely,

Nina Bell
Executive Director
