Docket No. 50-341

Detroit Edison Company
ATTN. Mr. O. D. Whiddon
Vice President Operations
2000 Second Avenue
Detroit, MI 48226

Gentlemen:

This refers to the second corporate management meeting conducted on August 23, 1978, by Mr. J. G. Keppler, and senior staff members of this office with yourself and members of your organization at your corporate headquarters.

The purpose of the meeting was to review inspection findings related to construction activities to date, to discuss the NRC inspection program related to the preoperation and startup phase of the Fermi 2 facility, and to better understand your management and QA program associated with plant testing and operation.

The enclosed copy of our inspection report summarizes the discussion.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and the enclosed inspection report will be placed in the NRC's Public Document Room, except as follows. If this report contains information that you or your contractors believe to be proprietary, you must apply in writing to this office, within twenty days of your receipt of this letter, to withhold such information from public disclosure. The application must include a full statement of the reasons for which the information is considered proprietary, and should be prepared so that proprietary information identified in the application is contained in an enclosure to the application.
