U.S. Nuclear Regulatory Commission
Washington, D. C. 20555

Docket Nos. 50-317
50-318

ATTENTION: Mr. Robert Reid, Chief
Operating Reactors, Branch 4

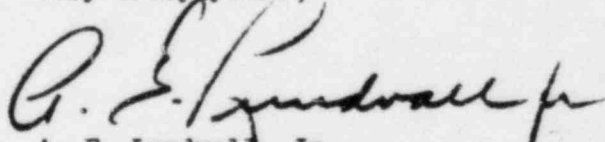

Gentlemen:

Please find enclosed five copies of Supplement 1 to Revision 3 of the Calvert Cliffs Modified Amended Security Plan (MASP). This Supplement addresses the temporary security arrangements to be established during the construction of our new Service Building. Construction of the building is scheduled to start November 1, 1978, and is to be completed the end of next year. Since approval of these arrangements is necessary before construction can start, we would appreciate your timely response. Details of this matter have previously been discussed with Mr. M. J. Gaitanis of your staff.

In accordance with Section 2.790(d) of 10 CFR 2, information regarding our facility security practices is exempt from disclosure. Therefore, Enclosure (1) should not be placed in the Public Document Room and should receive limited distribution.

Should you have further questions regarding these matters, we would be pleased to discuss them with you.

Very truly yours,

A. E. Lundvall, Jr.
Vice President - Supply
