Gentlemen:

Subject: Inspection No. 50-309/90-21

A special safety inspection was conducted by Mr. C. Conklin of this office on October 10-11, 1990 at your Maine Yankee Nuclear Power Plant, Wiscasset, Maine. Discussions of our findings were presented by Mr. Conklin to Mr. R. Blackmore and other members of your staff at the conclusion of the inspection.

The area examined during this inspection was limited to the observation of a remedial exercise conducted on October 10, 1990 as described in the NRC Region I Inspection Report which is enclosed with this letter. Within this area, the inspection consisted of selected examination of procedures and representative records, interviews with personnel, and observation of the remedial exercise by the inspector.

Within the scope of this inspection, no violations were identified. Maine Yankee Atomic Power Company's performance during the remedial exercise demonstrated the ability to implement the Emergency Plan and Emergency Plan Implementing Procedures in a manner that would provide adequate protective measures for the health and safety of the public.

No reply to this letter is required. Your cooperation with us in this matter is appreciated.

Sincerely,
Original Signed By:
