King of Prussia, PA 19406

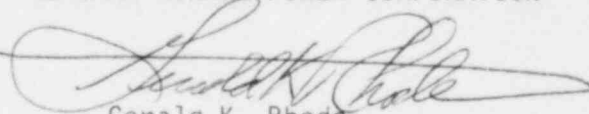

Re: Nine Mile Point Unit 2  
Docket No. 50-410

Dear Mr. Haynes:

This letter responds to your IE Bulletin No. 82-01, Revision 1, concerning alteration of radiographs of welds in piping subassemblies. The recirculation system piping and safe-ends and piping in the recirculation pump motor heat exchangers are the only piping assemblies supplied by Associated Piping and Engineering Corporation (AP&E) for use at Unit 2. All radiographs for the recirculation system piping and safe-ends and piping in the recirculation pump motor heat exchangers with wall thickness less than 1/2 inch have been reviewed in accordance with your Bulletin and no alterations were found.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION

Gerald K. Rhode  
Senior Vice President
