Mr. Ronald D. Hauber
Acting Assistant Director
International Security, Exports, and Material Safety
International Programs
Office of Governmental and Public Affairs
United States Nuclear Regulatory Commission
Washington, DC 20555

RE: Export License Application - Sizewell B Power Station

Dear Mr. Hauber:

Enclosed is our application for a license to export Special Nuclear Material to the Sizewell B Power Station in the United Kingdom. The enriched uranium is in sealed fission chambers used as detectors in a neutron flux monitoring system. The quantity of ^{235}U in each fission chamber is 3.562 grams.

Please call me if you need additional information.

Sincerely,

H. Gordon Shugars
