

Radiological Emergency Response Plan Committee

P.O. Box 1153

Duxbury, MA. 02331

August 15, 1990

Mr. Kenneth Carr, Chairman
U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Chariman Carr:

The Committee supports the August 6, 1990 letter from the Board of Selectmen to Kenneth Carr, Chairman, U.S. Nuclear Regulatory Commission and in particular the Selectmen's belief that the failings of the review process evident in this case require congressional action to ensure that the public safety is protected in future decisions and calling once again for the NRC to initiate a second investigation of the decision, based on the present status of emergency planning, to authorize power ascension above five per cent.

Sincerely,

Neil M. Johnson, Chairman
Radiological Emergency Response
Plan Committee

NMJ/km
