Inspection Summary

Inspection on August 13 - October 3, 1990 (Reports No. 50-295/90019(DRSS);
No. 50-304/90021(DRSS))

Areas Inspected: Routine, unannounced physical security inspection involving:
Management Support; Security Program Plans; Audits; Protected and Vital Area
Access Control of Personnel, Packages and Vehicles; Security Training and
Qualification; Security Organization; Communications and two allegations.

Results: The licensee was found to be in compliance with NRC requirements
within the areas examined. We have concluded that the licensee's performance
meets regulatory requirements and the security program is being adequately
