Docket No. 50-213

Mr. Brian K. Grimes, Assistant  
Director for Engineering and Projects  
Division of Operating Reactors  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

- References:
- (1) B. K. Grimes letter to All Power Reactor Licensees dated July 11, 1978.
  - (2) W. G. Council letter to B. K. Grimes dated July 26, 1978.

Dear Mr. Grimes:

Haddam Neck Plant  
Model Appendix I Technical Specifications

In Reference (1), Connecticut Yankee Atomic Power Company (CYAPCO) was requested to submit a license amendment application to incorporate the NRC Draft Appendix I Technical Specifications. The requested submittal date for the Haddam Neck Plant was November 8, 1978.

Since that time, representatives of CYAPCO have been actively involved in generating comments on the draft specifications via the Atomic Industrial Forum (AIF) Task Force. Efforts regarding development of plant-specific specifications have also been initiated.

However, due to the fact that revisions to the model specifications and NUREG-0133 are currently being finalized, and that these drafts are significantly different from the original version, it is impractical for CYAPCO to meet the November 8 submittal date. Other pertinent considerations for the delay were documented in Reference (2).

Subsequent to CYAPCO review of the revised versions of the pertinent documents, plant-specific specifications will be generated. In the absence of a detailed review of this material, a firm submittal date cannot be supplied. However, it is estimated that this effort can be completed on or about January 30, 1979.
