U. S. Nuclear Regulatory Commission
611 Ryan Plaza Drive, Suite 1000
Arlington, Texas 76011

Dear Mr. Whitten:

Attached please find plans for our new Office of Radiation Safety. We are planning on moving from our present location, 5SP301, to the indicated area in the library building, Rooms 175, 176, and 177. Also, please find a plan of the campus to show the library building relative to other buildings on campus.

The new location consist of a larger receiving area and additional space which is a necessity to take care of our present operation. We will inform you of the exact date of the transition to the new area. We will also inform the isotope vendors accordingly.

The present location will be wipe tested and surveyed before release to general use. A report will be filed to your office.

The attached plans are being sent for your comments and approval. Please let me know if any other information is required.

Thank you.

Sincerely yours,

B. Wally Ahluwalia
