July 30, 1982

Mr. Walter P. Haass, Chief
Quality Assurance Branch
Division of Engineering
United States Regulatory Commission
Washington, DC 20555

Dear Mr. Haass,

In compliance with the organizational change notification requirements, we are providing the following information concerning organization changes within the Babcock and Wilcox Operating Unit.

Effective June 15, 1982, the B&W Operating Unit was reorganized into five major organizations:

- Power Generation Group
- Advanced Technology Group
- Industrial Products and Services
- Tubular Products
- Naval Nuclear Fuel Division

The attached chart will replace Figure 1 of Topical Report BAW-10096A (Rev 4). We have reviewed these organization changes and find that they have no impact on the QA program commitments contained in our Topical Report. The organizational changes will be incorporated in the next revision to Topical Report BAW-10096A.

If you have any questions regarding these changes, please contact Mr. Charles Armontrout (Ext. 2473) of the Quality Assurance Section.

Sincerely,

THE BABCOCK & WILCOX COMPANY

James H. Taylor
Manager, Licensing
