Dear Mr. Wojnas: *Ed*

The Maine Bureau of Civil Emergency Preparedness has asked that we request the assistance of an NRC representative at a meeting in Augusta on Wednesday, August 18th (see enclosed letter).

The purpose of the meeting is for the State to determine what plan corrections are federally required in order to obtain approval of the State of Maine Radiological Incident Plan.

I believe that NRC participation is requested for clarification of the May 12, 1982 memo from Brian K. Grimes to Richard W. Krimm (copy enclosed).

Sincerely,

Edward A. Thomas, Division Chief
Natural & Technological Hazards

Enclosures

In discussions w/ E Thomas on 7/29/82 - He would like NRC to assure that Grimes or someone from his staff can be available to defend/clarify the Grimes position on capability for immediate evacuation (prior to State being involved or other assessments made). He also wants NRC regional rep.

Bob
