Gentlemen:

This will acknowledge receipt of your letter dated October 10, 1990 and your check for \$875.00 in payment for the civil penalty proposed by NRC in a letter dated September 17, 1990.

Part of the corrective action specified in your letter involves a review of the training manual with all employees assigned to the Melting Department in the month of February each year. In addition, you need to assure that employees are adequately trained before they begin duties with or in the vicinity of licensed radioactive materials. Your corrective actions will be examined during future inspections.

No reply to this letter is necessary.

Sincerely,

Original Signed By
