The Director of Nuclear Reactor Regulation
 Attention: Mr. William O. Miller, Chief
 License Fee Management Branch
 Office of Administration
 U.S. Nuclear Regulatory Commission
 Washington, D.C. 20555

Dear Mr. Miller:

As requested in your letter dated November 13, 1978, we are enclosing a check for \$2,800. This check, together with the \$1,200 sent previously, provides the fee required for a Class II license amendment request. We trust that after your final evaluation of our application for an amendment to reflect the proper surveillance frequency for venting the ECCS pump casings and discharge piping high points, you will agree that our original determination of Class III is correct and will return the \$2,800. In the meantime, the enclosed check will allow the NRC Review Staff to consider the license amendment request in a timely manner.

Yours very truly,
