Dear Mr. Garrity:

On July 14, 1982, the Commission issued Amendment No. 61 to Facility Operating License No. DPR-36 for the Maine Yankee Atomic Power Station. Among other things, the amendment changed the Technical Specifications in the area of administrative controls to indicate the establishment of a separate training department and other organizational changes.

Enclosed is page 5.2-3 (Figure 5.2-2) which was inadvertently omitted from the amendment package.

Please accept our apologies for any inconvenience this reproduction error may have caused you.

Sincerely,
