Mr. Samuel J. Chilk
Secretary of the Commission
United States Nuclear Regulatory Commission
Washington, D. C. 20555

Attention: Docketing and Service Branch

Subject: Advance Notice of Proposed Rulemaking - 10 CFR 51, License Renewal
for Nuclear Power Plants; Scope of Environmental Effects

Dear Mr. Chilk:

On July 23, 1990, the Nuclear Regulatory Commission provided the subject advance notice of proposed rulemaking (ANPR) in the Federal Register (55 FR 29964) and solicited comments from interested parties. Toledo Edison appreciates the opportunity to comment on the advance notice of proposed rulemaking.

Toledo Edison has reviewed the ANPR and the comments prepared by the Nuclear Management and Resources Council (NUMARC). Toledo Edison endorses the NUMARC comments and supports the NUMARC position that a generic environmental survey is the preferred approach to evaluating environmental effects associated with nuclear power plant license renewal.

Should you have any questions regarding Toledo Edison's endorsement of the NUMARC comments, please call Mr. R. W. Schrauder, Manager - Nuclear Licensing, at (419) 249-2366.

Sincerely yours,

PWS/mmb
