Dear Bob:

"Citizens Concerned About Nuclear Power" releases you from further responsibility in representing our interests in the intervention proceedings regarding the request for an operating license of the South Texas Nuclear Project by Houston Lighting and Power Company, Et Al. This decision was made at the regular meeting of the group on November 21, 1978. The Nuclear Regulatory Commission has been so informed. They have been instructed to send all further communications and documents about the proceedings to Coral Ryan of CCANP at 414 Kings Ct. #C San Antonio, Tx. 78212.

We also request that you release the documents and communications that you have received as our representative in this case to Carl Henry and Coral Ryan when they meet with you on Friday, 11-24-78.

We are confident that this decision was made to serve the best interests of all involved.

Sincerely,
Sydney Janak *Lanny Sinkin*
