WMUR:KLG
Docket No. 40-8348
SUA-1223, Amendment No. 1

Union Energy Mining Division
Union Oil of California
195 Pronghorn Drive
Casper, Wyoming 82601

Gentlemen:

Pursuant to Title 10, Code of Federal Regulations, Part 40, Source Material License No. SUA-1223 is hereby amended by revising License Condition No. 4 to read as follows:

4. Expiration date February 1, 1983.

All other conditions of this license shall remain the same.

The effect of this amendment is to extend the expiration date of SUA-1223 from July 31, 1982 to February 1, 1983 for the administrative convenience of both the licensee and the Nuclear Regulatory Commission. On March 18, 1981, Union Energy Mining Division (Minerals Exploration Company (MEC)) submitted a request for license termination at which time it appeared that NRC's review of this request would be completed prior to July, 1982. However, it was subsequently determined by the NRC and the Wyoming Department of Environmental Quality that additional groundwater monitoring was needed. This monitoring has been completed and a final report on groundwater data is to be submitted by MEC in August, 1982. This submittal should enable the NRC and DEQ to make a final decision on the adequacy of groundwater restoration later this year.

This license condition has previously been discussed by Mr. William Volk of MEC and Mr. Kenneth L. Kalman of my staff. Should there be any questions on this matter, please contact Mr. Kalman at (301) 427-4103.

FOR THE NUCLEAR REGULATORY COMMISSION
