Dear Hon. Palledino:

I have belonged to an organization called "CASE" for years because I am concerned about the mis-use of nuclear power, and CASE has always been an honest, logical and reasonable group.

Case & I are against funding for the Clinch River breeder reactor for several reasons, but safety is the number one issue. I believe some new information since 1977 makes it imperative that ~~you~~ the NRC issue a draft supplement to the final environmental statement & send it to CASE for comments. I assure you it would be greatly appreciated! The address for CASE is:

CASE, P.O. Box 924, Claremore, OK 74017.

Thank you for your trouble!

Sincerely,
Phil Layton

Honorable Nunzio Palladina,
Chairman NRC
Washington D. C. 2055

OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

Dear Mr. Palladino;

As a private citizen, I wish to insist that the NRC makes use of new information and circumstances regarding Clinch River which has become available since 1977. This information must be disclosed to the general public, to Sierra and Citizens' Action For Safe Energy, Inc. The address for Citizens' Action For Safe Energy, Inc., is P.O. Box 924, Claremore, Ok.. 74017.

I am appalled by the information about Clinch River which has recently be in the August Readers' Digest. How can you continue on with this project which has already wasted millions of dollars? How can the national budget be burdened with this horrendous debt, especially when it will have to be paid by citizens all over the United States while it is the pet project of Senator Baker for his state of Tennessee?

Eight darling great grand children of mine need to be protected from nuclear disaster- do you have little ones in your family that you'd like to protect? We do not need further nuclear breeders to be built as they are now with inadequate supervision, poor construction, unreliable equipment etc., to endanger more people.

You have an opportunity to show yourself as a real statesman. Somebody has to have the intestinal fortitude to stop Clinch. Are you the one?

Sincerely,

Walter Blackley
