

NOV 27 1990

Mr. Mark Matthews, Project Manager
Uranium Mill Tailings Remedial Action
Project Office
U.S. Department of Energy
Albuquerque Operations Office
P.O. Box 5400
Albuquerque, NM 87115

Dear Mr. Matthews:

By letter dated October 10, 1990, you presented plans for submittal of separate processing site certification reports on a case by case basis as land use circumstances dictate. As we have indicated in the past, we see no reason why concurrence in completion can not be performed in two phases. Furthermore, your plans for such reports indicate that they will include the necessary radiological data and information regarding the legal restrictions related to future groundwater restoration as specified in NRC's letter to you, dated March 27, 1990. Therefore, the NRC staff agrees with your proposed plans for separate processing site completion concurrence when site circumstances are appropriate.

Should you have any questions regarding this matter, please contact me or Dan Gillen of my staff (FTS 492-0517).

Sincerely,

ORIGINAL SIGNED BY
Paul H. Lohaus, Chief
