Re: Read and Sign Program

U.S. Nuclear Regulatory Commission
Attention: Document Control Desk
Washington, DC 20555

Gentlemen:

Haddam Neck Plant
Millstone Nuclear Power Station, Unit Nos. 1, 2, and 3
Site Access for NRC Inspectors

In our October 10, 1986 letter, ⁽¹⁾ Connecticut Yankee Atomic Power Company and Northeast Nuclear Energy Company submitted materials necessary to implement the Read and Sign Program for NRC Inspectors visiting the Haddam Neck and Millstone Sites. This program may be used by NRC employees with "L," "Q," and "145-B" security clearances who have completed general NRC Staff training in radiological protection, security, and personal safety comparable to that furnished by licensees.

Enclosed with this letter is an updated version of the Read and Sign Program manual. Please discard previous materials, as they have now been superseded.

Should you have any questions regarding the Read and Sign Program, please contact my staff.

Very truly yours,

CONNECTICUT YANKEE ATOMIC POWER COMPANY
NORTHEAST NUCLEAR ENERGY COMPANY

E. J. Mroczka
Senior Vice President
