Gentlemen:

This refers to the routine safeguards inspection conducted by Ms. G. M. Christoffer and Mr. T. J. Madeda of this office on October 11-17, 1990, of activities at Zion Nuclear Power Station, Units 1 and 2, authorized by NRC Licenses No. DPR-39 and No. DPR-48 and to the discussion of our findings with Mr. T. The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

During this inspection, certain of your activities appeared to be in violation of NRC requirements, as described in the enclosed Notice. Our understanding of your corrective actions is described in Paragraph 5 of the enclosed inspection report. Consequently, no reply to the violation is required and we have no further questions regarding this matter at this time.
