License No. 34-00466-02
Docket No. 030-00394

Gentlemen:

During an Enforcement Conference held in the NRC Region III office on May 2, 1990 between C. J. Paperiello, Ph.D., and other members of my staff and Mr. J. E. Lees and other members of your staff, your staff described plans to improve an apparent communications problem. These plans included scheduling regular meetings between the Radiation Therapy Department Chairman and the Radiation Safety Officer. Dr. Thomas Keys of your staff stated that an audit would be performed within three months after the Enforcement Conference to assess the effectiveness of these meetings. He also agreed to submit to the NRC a written assessment of the effectiveness of these meetings. Please refer to the enclosed Enforcement Conference Report which was previously sent to you on May 23, 1990.

We have not yet received a copy of this assessment which was due on August 23, 1990. Since this has been an ongoing issue and has potential safety implications, we are concerned about its final resolution. Please submit a copy of this document at your earliest convenience.

If you have any questions or require clarification you may contact Mr. J. Grobe of my staff at 708-790-5612.

Sincerely,

Carl Paperiello for

A. Bert Davis
Regional Administrator
