Nuclear Materials Safety Branch  
Nuclear Regulatory Commission  
Region III  
799 Roosevelt Rd.  
Glen Ellyn, Illinois 60137

RE: License No. 21-21265-01  
Docket No. 030-20121

Dear Mr. Grobe:

This letter is in response to your letter of November 5, 1990.

VIOLATION 1:

RESPONSE: I assumed that the June 6, 1990 letter from me to John Jones, USNRC, Region 3, Materials Licensing Section would replace the RSO immediately (i.e., to replace Dr. Grillo with Dr. Martin). Thus, I advised Dr. Grillo of same. My intent was to change one RSO with another, not provide a gap in RSO coverage. I also assumed that since Dr. Martin was not approved until July, that Dr. Grillo would automatically continue as the RSO.

In order to prevent such misunderstandings in the future, I will contact the NRC when any future changes are planned so that we maintain compliance with the law. According to my understanding of the law, we achieved compliance as of July 18, 1990.

VIOLATION 2:

RESPONSE: The new RSO (Dr. Martin) is cooperative and willing to schedule and hold Radiation Safety Committee meetings at least quarterly. The former RSO (Dr. Grillo) was not willing to cooperate in meeting the NRC requirement or any other matter.

Full compliance has already been achieved as of July 18, 1990.
