Dear Mr. Lohaus:

Enclosed for your review and concurrence are two copies of Revision A to the Remedial Action Inspection Plan (RAIP) for the Belfield/Bowman, North Dakota, Uranium Mill Tailings Remedial Action (UMTRA) Project site. We believe the RAIP adequately addresses inspection activities and is consistent with the Remedial Action Plan design specifications and UMTRA Project quality assurance program requirements. The RAIP is also consistent with the U.S. Nuclear Regulatory Commission's Staff Technical Position Revision 2 on testing and inspection plans.

Should you have any questions, please contact Milt Scoutaris of my staff at FTS 845-5650.

Sincerely,

Mark L. Matthews
