

November 26, 1990

Dr. Thomas L. Bauer  
Assistant Director  
Nuclear Engineering Teaching Laboratory  
The University of Austin at Texas  
10100 Burnet Road  
Austin, Texas 78758

Dear Dr. Bauer:

SUBJECT: MATERIAL REQUIRED TO COMPLETE EVALUATION FOR ISSUANCE  
OF OPERATING LICENSE

A review of our records shows that the following information is required to complete our evaluation for issuance of an operating license for the University of Texas at Austin TRIGA Research Reactor.

1. Updated Emergency Plan
2. Updated Operator Requalification Plan
3. Final Technical Specifications and Bases

In addition, three items were identified as remaining open by our inspection program.

1. Open item 602/8904-05, repair and calibration of the Argon-41 monitor.
2. Open item 602/8904-06, installation/testing of the HVAC system HEPA filter.
3. Open item 602/9003-01, receipt and installation of a new beam port shield plug.

If these items are not closed before issuance of an operating license, closure of these items before fuel loading will be a condition of the operating license.

If you have any questions concerning the issuance of your facility operating license, please contact Alexander Adams, Jr., at (301) 492-1127.

Sincerely,

original signed by  
Seymour H. Weiss, Director  
Non-Power Reactors, Decommissioning and  
Environmental Projects Directorate  
Division of Reactor Projects  
and Special Projects
