CENTENNIAL OF LIGHT

1879 1979

THOMAS ALVA EDISON

"He has led no armies into battle — he has conquered no countries — yet he wields a power the magnitude of which no warrior ever dreamed. . . This democratic, kindly, modest man has bestowed upon the human race blessings instead of bondage, service instead of serfdom, construction instead of conquest. . . He is humanity's friend."

ARTHUR J. PALMER

The 100th anniversary of Thomas Edison's invention of the electric light will take place on October 21, 1979. It is an event symbolic of the inventiveness of man, the promise of research, and the importance of energy. As a salute to Thomas Edison and to provide you with an insight into the life of Edison and his contribution to mankind, Lake Superior District Power Company is pleased to offer you a free booklet entitled, "Edison—The Man Who Turned Darkness Into Light". Please address your request to Public Relations Department, Lake Superior District Power Company, 101 West Second Street, Ashland, Wisconsin 54806.
