Gentlemen:

Subject: Inquiry No. 030-19421/20-001

This refers to your letter dated August 1, 1990, in response to our letter dated July 14, 1990 and to a telephone conversation between Mark Johnson, Ph.D. of your staff and Steven Courtemanche of this office on September 11, 1990.

Thank you for informing us of the corrective actions documented in your letter. These actions will be examined during a future inspection of your licensed program. Please note that whenever you change your location of use or request additional places of use, the Commission must be informed and approve those locations. The above understanding was arrived at on September 11, 1990, between Dr. Johnson and Steven Courtemanche. It was also determined that radioactive waste not held for decay-in-storage was transferred to your present facility. Based on the information provided in your letter dated August 1, 1990, your facility at 330 West Cummings Park, Woburn, Massachusetts is released for unrestricted use.

Your cooperation with us is appreciated.

Sincerely,

Original Signed By:
