

Mr + Mrs C Ulmer
234 Haddon Ave
Collingwood, NJ
08108

Nuclear Regulatory Comm.

Please prevent
the release of radio-
active materials +
contaminated water
from three mile iso-
atomic plant.

Since there is no
firm information on
the effects of low level
radiation why should
the public be subjected
to unknown dangers
as for shipping
2000 containers of

contaminated water
across the country.
The law of averages
alone should show
the fallacy of the
plan.

Close to M. J. Foxes,
People before Money.

Mr + Mrs Conway
