Docket No. 040-00772

License No. STB-424 (Expired)

Allied-Signal Aerospace Company
ATTN: Mark S. Schwind
Environmental Engineer
Teterboro, New Jersey 07608

Gentlemen:

Subject: Final Radiological Clean-Up Plan

This refers to your letter dated October 4, 1990 and the telephone conversation between yourself and Betsy Ullrich on November 5, 1990.

The Final Radiological Clean-Up Plan for the Allied-Signal Aerospace Teterboro Facility and the adjoining MetPath, Incorporated property has been reviewed and is acceptable to the NRC. We understand that you have selected a contractor and will begin work on November 26, 1990. We further understand that the results of the post-remediation sampling described in the plan will be submitted to this office for review. We will consider whether the site may be released for unrestricted use following completion of the remedial action and receipt of this data. If our understandings are incorrect please inform us in writing.

We plan to conduct on-site inspections to review your implementation of the Clean-Up Plan. We also plan to perform confirmatory analyses of soil samples from the area along the ditch bank. Please continue to inform us of the work schedule remediation activities.

Your cooperation with us is appreciated.

Sincerely,
Original Signed By
John D. Kinneman
