030-05982, 030-08336,
and 030-08444

Board Notification 91-08

MEMORANDUM FOR: Atomic Safety and Licensing Board
and All Interested Parties

FROM: John E. Glenn, Chief
Medical, Academic, and Commercial
Use Safety Branch
Division of Industrial and
Medical Nuclear Safety, NMSS

SUBJECT: NEW INFORMATION POTENTIALLY RELEVANT TO LICENSING BOARD
PROCEEDING IN THE MATTER OF SAFETY LIGHT CORPORATION,
UNITED STATES RADIUM CORPORATION, USR INDUSTRIES, INC.,
USR LIGHTING, INC., USR CHEMICAL, INC., USR METALS, INC.,
U. S. NATURAL RESOURCES, INC., LIME RIDGE INDUSTRIES, INC.,
METREAL, INC., AND ALL OTHER SUCCESSOR CORPORATIONS TO
EITHER USR INDUSTRIES, INC., OR U.S. RADIUM CORPORATION

In conformance with the Commission's policy on Board notifications, this memorandum calls attention to the issuance of Amendment 10 terminating License Number 37-00030-07E (the -07E License); a copy of Amendment 10 is enclosed.

The -07E License authorized only the distribution of timepieces, hands and dials to which luminous paint containing tritium had been applied, to persons exempt from licensing pursuant to 10 CFR 30.15; it did not authorize the possession or use of any licensed material. The licensee submitted a timely application for renewal dated March 18, 1991. By letter dated August 8, 1991, the licensee indicated that it had not manufactured the products listed in the -07E License since 1986 and requested that the -07E License be terminated. The Staff has granted that request and believes that the termination of the -07E License does not affect the ongoing proceeding because the -07E License did not authorize the possession or use of any radioactive material. Rather, the licensee possessed and used the products identified on the -07E License under the authority of License Number 37-00030-08, which is not affected by this licensing action.
