

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

OCT 10 1991

Safety Light Corporation
ATTN: Mr. Jack Miller, President
4150-A Old Berwick Road
Bloomsburg, Pennsylvania 17815

Gentlemen:

Enclosed please find Amendment 10 to License No. 37-00030-07E, which terminates the license. We have taken this action in response to your August 8, 1991, letter asking for termination and have considered your August 1991 request as superseding your March 18, 1991, renewal application.

For the administrative convenience of the Nuclear Regulatory Commission (NRC) Staff, we have issued this amendment terminating License No. 37-00030-07E naming Safety Light Corporation as the licensee. This action should not be interpreted as changing the Staff's position, as described in its filings with the Atomic Safety and Licensing Board, that U. S. Radium Corporation and its successor corporations, including Safety Light Corporation, USR Industries, Inc., and their subsidiaries, are subject to the NRC's jurisdiction.

If you have any questions, please contact me at (301) 492-0615.

Sincerely,

A handwritten signature in cursive script that reads "Patricia C. Vacca".
