Attention: Mr. James E. Cross
Vice President and Chief Nuclear Officer

SUBJECT: ACCEPTANCE OF PROPOSED REVISION TO THE TROJAN QUALITY ASSURANCE
PROGRAM FOR THE PERMANENTLY SHUT DOWN AND DEFUELED CONDITION

We have completed our review of the proposed revision to the Trojan QA Program which you resubmitted on September 28, 1993. Our review of the proposed revision included a discussion between representatives of your QA organization and Mr. W. Wagner of this office on September 22, 1993. The clarifying information we requested was provided in your submittal as Attachment II, "PGE Response to NRC Comments Regarding Proposed Revision to QA Program."

Our review of the proposed revision of the Trojan QA Program, as submitted by the September 28 letter, has determined that the program continues to meet the requirements of 10 CFR 50, Appendix B; therefore the changes are acceptable. If there are any changes to other QA commitments existing in docketed correspondence outside of the Safety Analysis Report (SAR) QA program description, you are obligated to notify this office. Implementing such changes should be based on 10 CFR 50.54(a)(3).

If you have any questions regarding this matter, please contact W. J. Wagner of my staff at (510) 975-0313.

Sincerely,

K. E. Perkins, Jr., Director
Division of Reactor Safety and Projects

Wenslawski & Jim Reese whom had no problems with this change. Mike Masnik (NRR PM), in a telegram on 10/28/93 with W. Wagner indicated that he had no problems with the proposed revision that was resubmitted by Trojan PGF on Sept. 28, 1993.
