August 4, 1982

U.S. Nuclear Regulatory Commission  
Region III  
799 Roosevelt Road  
Glen Ellyn, Illinois 60137

Sir:

Your letter with notice of violations dated July 15, 1982 has been received and reviewed. The following is the required answer on each violation.

#1 Quarterly Unannounced Inspection

Since this has been brought to our attention we will be in full compliance in the future.

#2 Quarterly Inventory

It was not understood that quarterly reports had to have the actual location of each source since each unit is always locked and secured in mobile darkroom around our tri-state job location sites. The actual location will be stated in the future.

#3 Monitoring

All employees have been informed to survey all shipments received and record readings on shipping papers.

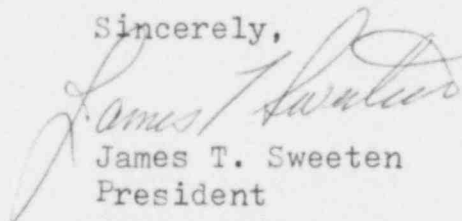

#4 Yearly Exposure Record

This has been completed and forwarded to the office of Inspection and Enforcement, Nuclear Regulatory Commission, Washington, D.C.. Notice has been posted in our office for future reference.

#5 Individual Exposure Record

Again as in #4 records have been completed and forwarded to the proper persons.

Sincerely,

James T. Sweeten  
President
