DOCKET NUMBER 50-289
PROD. & UTIL. FAC.

Nuclear Regulatory Commission
Washington, DC. 20555

Dear Sirs:

I hat you have ruled out stress as a factor in the restart of Unit 1 - J.M.F. gives me a feeling of the utter futility of all the attention you have seemingly been giving to us stricken people.

I hold you responsible for abolishing my inalienable right to "the Pursuit of Happiness."

With despair,

Mary H Douglas
