Post Office Box 270

Dear Mr. Council:

SUBJECT: CONTROL OF HEAVY LOADS
MULTIPLANT TASK (C-10)

Enclosed is a copy of a draft technical evaluation report (TER) for the Haddam Neck plant on "Control of Heavy Loads". This report was prepared by our contractor, Franklin Research Center and is based on your responses dated June 25, July 20, 1981 and April 16, 1982 to section 2.1 of the NRC December 22, 1980 generic letter on "Control of Heavy Loads".

We request that you review this draft report and provide your comments to the staff. Within four weeks your NRC Project Manager will be contacting you to set up a conference telephone call to resolve any open items listed in the TER.

We intend to issue a safety evaluation report on this subject which will be based upon the final TER to be issued by Franklin after this conference call and receipt of your comments.

Sincerely,

Original Signed By
