Mr. John F. Ahearn  
Chairman Commission  
U.S. Regulatory Commission  
1717 K Street N.W.  
Washington, D.C. 20555

Dear Chairman Ahearn:

I am writing as a resident to state my views on restarting Unit 1 at T.M.L. It seems a great waste to have Unit 1 idle, when it could be used to generate much needed electricity at a lower cost to the consumer.

Thank you for giving this your attention and consideration.

Yours truly,  
(Mrs.) Marlin Beshore
