

Docket No. 50-289

Restart

DOCKET NUMBER  
PROD. & UTIL. FAC...

50-289

2855 Croyden Road  
Harrisburg, Pa., 17104  
December 9, 1980

The Hon. John F. Ahearne, Chairman  
Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Commissioner Ahearne,

I am responding to the General Public Utilities Corporation letter of December 1, 1980 requesting that the Commission reconsider and modify its Orders of July 2, 1979 and August 9, 1979 dealing with the restart of Three Mile Island Unit No. 1.

Under no circumstances should Met-Ed be allowed to restart TMI-1. What a mockery that would be!!

It is essential that the Atomic Safety and Licensing Board as mandated by the Commission be allowed to complete the task without undue pressure from anyone or any company.

I realize that all parties are under a great deal of pressure that effect thousands of lives. Those pressures must be kept in perspective. It is imperative that the Commissioners not waver from the intent of the Orders (7/2/79 & 8/9/79).

Most sincerely,

*Kay Pickering*  
Kay Pickering
