DOCKET NUMBER 50-289
PROD. 2 1717 100

Mr. John F. Ahearne
Chairman Commissioner
U.S. Nuclear Regulatory Commission
1717 H. Street, N.W.
Washington, DC 20555

Subject: Docket 50-289SP
TMI - Unit 1
Middleton, PA

Dear Mr. Ahearne:

As a Duke Power employee and as a member of Nuclear Energy Women, I would like to express my support for the safe and orderly reopening of Three Mile Island - Unit 1. From my research, I find that Unit 1 meets all the required NRC changes brought about by the accident at TMI - Unit 2, and I see no reason why Unit 1 should not be allowed to operate again and make any remaining changes while operating, as other nuclear plants are doing across the country. I am confident that the operators of TMI - Unit 1 are as capable as any other group of experienced operators and have benefited from all the lessons learned from Unit 2.

I strongly support nuclear power in this country. I feel that not allowing Unit 1 at Three Mile Island to operate is both unjustified and discriminatory, and I am hopeful that this situation will change in the near future. Thank you.

Sincerely,

Debbie B. DuBose
Director, Keowee Toxaway Visitors Center
