The Honorable Joseph H. Hendrie
U.S. Nuclear Regulatory Commission

Dear Mr. Hendrie:-

We are writing to urge you to support and vote for the immediate restart of TMI 1. Let's get the show on the road. Let's see if we can't save General Public Utilities from bankruptcy rather than trying to force them into bankruptcy.

GP needs the electricity this plant can produce so cheaply & efficiently. They need the revenues it can bring them so that they can get TMI 2 cleaned up & begin to pay dividends to their stockholders again soon.

It is just as important to get this company going again as it is to loan Chrysler money to keep going. It seems to us that you are doing everything you can to keep GP down when you should be trying to help them stay in business safely!

Very truly yours,

John R. Dedale
