Mwt. The Applicants also apply for appropriate source, by-product, and special nuclear material licenses for the project. TUGCO, as lead Applicant and as agent for DPL, TESCO, TPL, TMPA, BEPC, and Tex-La, provides the following information in accordance with 10 CFR 50.33.

(a) Name of Applicant

The Applicants are Texas Utilities Generating Company, Dallas Power & Light Company, Texas Electric Service Company, Texas Power & Light Company, Texas Municipal Power Agency, Brazos Electric Power Cooperative, Inc. and Tex-La Electric Cooperative of Texas, Inc. The ownership percentages are as follows:

TESCO	35 5/6	1
TPL	33 2/3	2
DPL	18 1/3	1
TMPA	6 1/5	1
BEPC	3 4/5	2
Tex-La	2 1/6	2

TUGCO is the lead Applicant, and as such acts as agent for the Owner Applicants for design, construction, and operation, as well as representation in licensing matter, but will have no ownership interest.

(b) Address of Applicants

Texas Utilities Generating Company
2001 Bryan Tower
Dallas, Texas 75201

Dallas Power & Light Company
1506 Commerce Street
Dallas, Texas 75201

The Comanche Peak Steam Electric Station will be located in Somervell County, Texas, 65 air miles southwest of the Dallas-Fort Worth Metropolitan Area in North Central Texas. Details concerning the plant, the site, and the attendant environmental considerations are contained in the Final Safety Analysis Report (FSAR) and the Environmental Report (ER), which constitute part of this application.

(f) Deleted

THIS PAGE WAS INTENTIONALLY LEFT BLANK

(g) Radiological Emergency Response Plans

The radiological emergency Response Plans of the State of Texas and the counties of Somervell and Hood have been submitted separately.

(i) Regulatory Agencies and Trade and News Publications

Neither TUGCO nor the Owners are subject to the plenary jurisdiction of the Federal Energy Regulatory Commission.

All municipalities in Texas are empowered by statute to regulate rates and to prescribe rules and regulations under which services are rendered by electric utility companies within their city limits. For non-municipal utilities, the Public Utility Commission of Texas (PUC) is empowered to regulate rates and to prescribe rules and regulations for areas outside the limits of municipal corporations, and within the limits of those municipal corporations which have ceded their regulatory authority to the commission. The PUC also has jurisdiction over appeals from decisions of municipalities with respect to regulation of rates and service. The rates of the joint Owners have been formally adopted or approved by the appropriate regulatory agency, with the exception of the TMPA which is not subject to outside regulatory approval.

TMPA has taken the position that under the Texas Public Utility Regulatory Act the PUC does not have jurisdiction over it. In Docket No. 41 of the PUC, issued on October 8, 1976, the PUC found that it did not have jurisdiction to require TMPA to obtain certificates of convenience and necessity before building facilities within the State. In an opinion dated July 22, 1980, the attorney general of Texas ruled that PUC has no original or appellate jurisdiction over the rates of the TMPA. The statute under which TMPA was created, and which reserves
